

AGENDA

MARCH 03

4:00 - 5:00 p.m. | Welcome and Opening Session

Farah Arosemena-Murfee, State of the Science Meeting Series,
Southeastern Coastal Center for Agricultural Health and Safety, University of Florida

J. Glenn Morris, Southeastern Coastal Center for Agricultural Health and Safety,
Emerging Pathogens Institute, University of Florida

Alan McCulla, International Fund for Fishing Safety, The Seafarers' Charity

5:00 - 6:00 p.m. | Poster Session with Light Fare

MARCH 04

7:00 - 8:00 a.m. | Breakfast

8:00 a.m. | Panel 1: Community Voices

Moderated by Pablo Mendez-Lazaro

- Raimundo Espinoza: Conservacion ConCiencia, Fishing Practices and Conservation
- Ricardo Lugo, Asociación de Pescadores Artesanales de Boquerón: Strengthening the viability and resilience of small-scale fisheries and enhancing the community's well-being and economic livelihood
- Nicolás Gómez Andújar, Fishermen's Association of Culebra: Community burden and need

9:30 a.m. | Special Session: Building better strategies to address health and well-being of fishing communities through social network analysis

Danielle Varda, Visible Network Labs

10:15 a.m. | Break

Coffee/Tea/Cold Beverages/Snacks

10:30 a.m. | Panel 2: Research/Extension

Moderated by Glenn Morris

- Shannon Guillot-Wright: Department of Environmental and Occupational Health at University of Texas, School of Public Health and Director of the PEOPLE Centered Lab: Health disparities and Doc-side Clinics
- Eric Wade: East Carolina University, Complex Impacts of Socio-Environmental Change on Community Resilience and Wellbeing
- John Diaz, University of Florida, Institute of Food & Agricultural Sciences, Department of Agricultural Education and Communication, Gulf Coast Research and Education Center – Fostering Resilience and Innovation: Advancing Community-Driven Solutions for Sustainable Fisheries in the Gulf Coast and Caribbean
- Carlos Garcia-Quijano, University of Rhode Island, Coastal resources, Local Knowledge, and Human Well-being: The value of small-scale fishing communities for healthy and equitable coastal futures.
- Leann Cyr, Alaska Marine Safety Education Association: Using a community based participatory research approach with Alaska Native Setnetters to improve safety in a high risk and small-scale fishery.

AGENDA

MARCH 04 (continued)

12:00 - 1:00 p.m. | Lunch

Lunch Buffett

1:00 p.m. | Panel 3: Research/Extension

Moderated by Julie Sorensen

- Angela Lindsey, Utilizing Extension and the Extension Disaster Education Network (EDEN) in disaster preparation, mitigation, response, and recovery – Lessons learned from 2024 natural and biological disasters
- Amanda Roome, Beneath the surface: Mental health in commercial fisheries
- Jay Kim, Incubating a fisherman's intervention idea for reducing musculoskeletal injuries among scallopers
- Megan Considine, Advancing a restorative oyster aquaculture industry in the U.S. Caribbean

2:15 p.m. | Break

Coffee/Tea/Cold Beverages/Snacks

- Julie Sorensen, Northeast Center for Occupational Health and Safety: Agriculture, Forestry and Fishing/New York Center for Agricultural Medicine and Health Innovation Exchange (IFISH7)

POSTERS

IFISH Innovation Exchanges

Julie Sorensen, Jennifer Lincoln and Florence Poulain

Addressing the Basic Needs of Commercial Fishermen in the Gulf of Mexico

Amanda Wickman, Bibiana Toro Figueira, Jeffrey Levin and Shannon Guillot-Wright

Fishing for Justice: Addressing Coastal Displacement and Seafood Accessibility in Culebra, Puerto Rico

Emmanuel Maldonado-Gonzalez, Nicolás Gómez Andújar and Nathania Martinez

Opioid Overdose Response Training for Commercial Fishermen

Denise Damewood and Leanne Cyr

Exploring the Applicability of a Participatory Action Research Framework for Addressing Heat-Related Illness in Puerto Rico's Fishing Industry

John Diaz and Ysabel Polanco

Health Effect of Climate Change and Heat Stress in Farming and Fishing Occupations: A Risk Factor for Chronic Kidney Disease

Jie Zhou, Shaolin Xiang, Daniel Verdugo, Kathryn Greenberg, Valentina Steveson, Yang Yang, John Roberts, Jamie Butler-Dawson, Abdel Alli, Nancy Denslow and Chris Vulpe

Feasibility analysis for artisanal native oyster mariculture supply chain in Culebra, PR

Megan Considine and Nicolás Gómez Andújar

Lines of Support: Tackling Stress at Sea

Amanda Roome, Julie Sorensen, Kimberly Gertz and John Huber

Pathway to Innovation in Occupational Health and Safety: Creating the Northeast Center Research to Practice Incubator

Liane Hirabayashi

Outcomes of a Southeastern Coastal Center for Agricultural Health and Safety Study on Low Back Pain in Clam Aquaculture Workers in Cedar Key, FL

Kimberly Dunleavy
